

Divisions

RAS

AJL's Research Libraries, Archives, and Special Collections Division is working together to further the interests of our profession in a time of tremendous technological change. Among its many activities are those of the *RAS Cataloging Committee*, an influential body dealing with issues affecting Hebraica and Judaica cataloging policies.

SSC

The Synagogue, School, and Center Division serves many types of institutions, including: synagogue libraries of all denominations, libraries in Jewish day schools and Hebrew schools, Jewish community center libraries, and libraries serving Jewish organizations.

Scholarships

AJL awards scholarships to students enrolled in a masters program of library and/or information science who demonstrate an interest in Judaica librarianship.

AJL Reads

Check out our new virtual book club, AJL Reads. We'll be investigating different discussion platforms as we examine some wonderful Jewish literature. Books and times will be announced on the website and on HaSafran.
