Dear Friend,

As President of the Association of Jewish Libraries, I am writing to invite you to submit information about your Judaica collections to the Jewish Collections Directory.

The Association of Jewish Libraries (AJL) is the leading authority on Judaica librarianship and an international, professional organization that fosters access to information and research in all forms of media relating to all things Jewish. The Association promotes Jewish literacy and scholarship and provides a community for peer support and professional development.

The AJL Jewish Collections Directory aims to map institutions with Judaica collections worldwide to promote the visibility and accessibility of these collections. Our goal is to include information about all Judaica libraries and archives, especially lesser-known collections such as those found in synagogues, schools, historical societies, or museums.

We ask your help to enrich this Directory by including your collection. You can do so in two ways:

a. Filling out this online form, or
b. Emailing us at ajldirectorycommittee@gmail.com

Please do not hesitate to contact our Directory Team at AJLDirectoryCommittee@gmail.com with any questions you might have regarding this project. I also invite you to visit our website to learn about the events and other professional development opportunities AJL sponsors.

I look forward to seeing your collection on our Directory map.

All Best,

Michelle Margolis
AJL President
