Bibliography of South African Jewry 2023 Versus 1997

Dr. Veronica Belling

Description: Whereas the Bibliography of South African Jewry of 1997 included print items, only the Bibliography of 2023 includes a variety of digital contents. The 2023 Bibliography has been both updated to include new categories - such as "Gender" - and backdated to include categories previously omitted - such as "Cookbooks." This paper will consider how these changes and others reflect the current state of South African Jewry.

Veronica Belling served as the Jewish Studies Librarian at the University of Cape Town Libraries for 31 years. She is currently affiliated with the Kaplan Centre, University of Cape Town as a researcher, bibliographer, author and translator of books and articles on the subject of South African Jewry.
